Summary: Attached is a memorandum from Fire-EMS Chief Jason Loftus seeking authorization to apply for a Virginia Office of EMS Rescue Squad Assistance Fund grant in the amount of \$40,800. If awarded, grant funds will be used to replace 15 Toughbook laptops used in field operations with new Getac rugged laptops.

Budget Impact: A 50% local match of \$20,400 is required. The proposed source of funds for the local match is the Fire-Rescue Capital Reserve.

Action(s) Requested of Board of Supervisors: Authorize Chief Loftus to apply for a Virginia Office of EMS Rescue Squad Assistance Fund grant in the amount of \$40,800 and to utilize the Fire-Rescue Capital Reserve for the required \$20,400 local match

County of Caroline
Department of Fire-Rescue & Emergency Management

Date: March 3, 2020

To: Charles Culley, County Administrator
Caroline County Board of Supervisors

From: Jason R. Loftus, Chief

Subject: RSAF Grant request: Ruggedized Laptop/Tablet computer for EMS Units

The Virginia Office of EMS, offers to localities grant funds dedicated for continued operations of EMS services in localities. The Rescue Squad Assistance Fund (RSAF) allows for the purchase of equipment directly related to the provision of medical care.

Caroline County Fire and Rescue is seeking to replace 15, outdated Toughbook CF-19's with new Getac rugged laptops. The Toughbook CF-19's were purchased in 2009 and have exceeded their serviceable life expectancy. The computers are beginning to experience issues that our county IT department cannot repair due to the age of both the hardware and software. The majority of the Toughbooks are using Windows 7. Our department no longer supports that operating system and Panasonic does not officially support any current operating systems on the Cf-19 platform.

The Getac rugged laptop has been determined to be the most cost effective and functional device. The equipment was evaluated on the basis of functionality with Elite software, battery life, durability, and ease of use for the provider. The Department has 10 current Getac devices in service.

The Department is requesting permission to apply for a 50/50 grant to replace these computers at a total cost of \$40,800 with a local obligation of \$20,400. Funds for the local obligation are recommended to come from the Fire-Rescue Reserve.

The Department currently operates with a total of 28 computers in the field for EMS data collection.

Recommended Action:

Motion to apply for the RSAF Grant process for 15 replacement ruggedized Laptop computers for licensed EMS units at the 50/50 funding level.
