VDOT HOT SPOTS IN THE FREDERICKSBURG DISTRICT

March 11, 2018 – March 17, 2018

All work has been scheduled weather permitting. Real-time information on work zones and lane closures is available on [511Virginia](#).

Interstate 95 (Exit 140/Courthouse Road)

Work is underway on a project to improve the I-95 interchange at Exit 140 (Route 630/Courthouse Road). The project includes building a diverging diamond interchange at Exit 140, relocating the Courthouse Road and Route 1 intersection to the south to align with Hospital Center Boulevard, and widening Courthouse Road to four lanes from Cedar Lane to Ramoth Church Road.

Interstate 95 Southbound On-Ramp CLOSURE

(Update) Monday – Thursday, 7:30 p.m. – 4:30 a.m. The I-95 southbound on-ramp from Courthouse Road will be closed nightly to complete milling and paving the temporary ramp. Traffic will then be shifted on to the new temporary on-ramp starting early **Friday, March 16**. All other ramps at Exit 140 will remain open. Drivers should use the most convenient alternate route to access I-95 southbound, including Route 1 to Exit 136/Centreport Parkway. The new ramp is parallel to the existing on-ramp. Drivers will notice the temporary on-ramp is steeper than the existing one. Crews have extended the acceleration lane on I-95 southbound to give drivers more space to merge at interstate speeds. Shifting traffic to the new temporary ramp is needed to provide space for crews to build the bridge abutments as part of the new diverging diamond interchange.
